

New

INTRODUCING 35-DC 08/16 12V MOTOR

Part number 14.110.000

We have reached a breakpoint after years of development followed by 12 months of field testing and can now present

DC-08 our new 12v motor

- It has been designed to be used in conjunction with the E-Series battery controls – E-Port 18650 & E-Port 18650 RF and E-Trans Remote.
- Available with Drive Kits for 50mm Round and 60mm Octagonal Axles.
- The DC-08 (being an 8nm instead of 6nm) has a stronger lifting capacity than the T06 and will be available at the same price.
- Suitable for both Rollashield Roller Shutter and Slidetrack Blind applications.
- No Electrician required for installation.

TECHNICAL SPECIFICATIONS

Minimum Width	660mm
Maximum Shutter Weight	13kg
Axle Cut Allowance	82mm
Limit revolution	40 turns
